2026

Quality Production Improvement 2026

20 Years
ANNIVERSARY
Celebration

CONFERENCE TOPICS

QUALITY: -- Quality Engineering, -- Quality and production management, -- Quality and production safety, -- Quality of construction materials, -- Quality of service, -- Quality of life in the workplace, -- Organizing and Controlling of Production Processes; -- Visual control and visual management systems, **PRODUCTION:** -- Management systems in production engineering, -- Smart Engineering, -- Industry 4.0 and 5.0, -- Manufacturing system design, -- Mechanization and automation of production processes, -- Sustainable development, -- Additive Manufacturing, -- Cleaner production, -- Use of waste materials in sustainable production management vs quality improvement, **IMPROVEMENT:** -- Total Productive Maintenance, -- Six Sigma, -- Lean Manufacturing, -- Improving value streams, -- Improving work safety, -- Operation of technical and construction facilities, -- Management of Product and Process Innovations, -- Renewable and alternative energy sources in production systems, -- Energy-saving and energetically active architecture, -- Cost analysis of design processes, -- Human resource management vs quality improvement, -- The role of human capital in production engineering
Active learning and quality in engineering education.

PLACE: Grodziec near OPOLE

MAIN ORGANIZER

THE MANAGERS OF QUALITY AND
PRODUCTION ASSOCIATION

PARTNERS

FACULTY OF MANAGEMENT
CZESTOCHOWA UNIVERSITY OF TECHNOLOGY

POLI
TECH
NIKA

UNIVERSITY
OF ŽILINA
