# **MACHINERY AND EQUIPMENT SAFETY IN INDUSTRY**

Monograph

editor

Adam Idzikowski

CZESTOCHOWA 2013

Czestochowa University of Technology  
Faculty of Management

**MACHINERY AND EQUIPMENT SAFETY  
IN INDUSTRY**

**MONOGRAPH**

SCIENTIFIC EDITOR  
**Adam IDZIKOWSKI**

**CZĘSTOCHOWA 2013**

**Reviewers:**

Prof. dr hab. inż. Franciszek W. Przystupa  
Prof. dr hab. inż. Zbigniew Kłos

**Scientific editor:**

Dr inż. Adam Idzikowski

**Technical editor:**

Agnieszka Grabara

**Cover design:**

Marcin Pilarski

**Authors:**

Adam DUDA – chapter VIII  
Adam IDZIKOWSKI – chapter XI  
Adam IDZIKOWSKI, Agata KOWALCZYK – PASEK – chapter IX  
Anna HENCLIK, Natalia IWASZCZUK, Joanna KULCZYCKA – chapter IV  
Bolesław PRZYBYLIŃSKI, Bogdan ŻÓŁTOWSKI – chapter I  
Joanna CYGANIUK – chapter V  
Joanna WILCZARSKA – chapter X  
Krzysztof BIERNACKI – chapter III  
Maciej PASZKOWSKI – chapter XIII  
Marek MŁYŃCZAK – chapter VII  
Marek SOKOLSKI – chapter VI  
Piotr SOKOLSKI – chapter XII  
Sławomir BEDNARCZYK – chapter II

Wydanie B5. Nakład 100 egz.

## Table of Contents

<b>Introduction .....</b>	<b>5</b>
<i><b>Chapter I</b></i>	
Design of machinery safety .....	7
<i><b>Chapter II</b></i>	
Influence of geometry of planet gear on work safety of planetary cycloidal transmission .....	33
<i><b>Chapter III</b></i>	
Determination of the safe range of applicability of plastics as materials for the construction of cycloidal gears .....	46
<i><b>Chapter IV</b></i>	
Energy security in the selected industries in Poland .....	63
<i><b>Chapter V</b></i>	
Safety of granular materials in conveyor transport systems .....	72
<i><b>Chapter VI</b></i>	
Critical areas of working tools of hydraulic hammers .....	93
<i><b>Chapter VII</b></i>	
Risk analysis of machinery operation – the system approach .....	105
<i><b>Chapter VIII</b></i>	
Analysis of the selected mechanical hazards along with the assessment of risk from their occurrence in the area of longwall heading of the hard coal mine .....	117
<i><b>Chapter IX</b></i>	
Diagnostics of machines and work equipment and safety in the working environment .....	127
<i><b>Chapter X</b></i>	
Genesis of the condition of machines as the process affecting the improvement of their safety .....	146
<i><b>Chapter XI</b></i>	
Method of diagnosing leakages in working hydraulic brake circuit in automotive vehicles .....	166

***Chapter XII***

Differential diagnosing method in working machines  
using diagnostic indicators ..... 181

***Chapter XIII***

Evaluation of grease microstructure mechanical stability  
by means of the dynamic oscillatory rheological tests ..... 189

**Conclusion** ..... 204

**Note on the authors** ..... 206
