# DIAGNOSIS OF WORKING MECHANISMS IN MACHINERY AND EQUIPMENT

MODELING - DESIGNING - ASSESSMENT OF THE CONDITION

MONOGRAPH

SCIENTIFIC EDITOR  
ADAM IDZIKOWSKI

Czestochowa 2014

Czestochowa University of Technology  
Faculty of Management

**DIAGNOSIS OF WORKING MECHANISMS  
IN MACHINERY AND EQUIPMENT**

MODELLING – DESIGNING – ASSESSMENT OF THE CONDITION

**MONOGRAPH**

SCIENTIFIC EDITOR

**Adam IDZIKOWSKI**

Czestochowa 2014

**Reviewers:**

Prof. dr hab. inż. Zbigniew Kłos  
Prof. dr hab. inż. Franciszek Przystupa

**Scientific editor**

Dr inż. Adam Idzikowski

**Technical editor**

Agnieszka Grabara

**Cover design**

Marcin Pilarski

**Authors:**

Adam IDZIKOWSKI, Joanna CYGANIUK – chapter 2  
Agnieszka PUSTUŁKA – chapter 7  
Agnieszka PUSTUŁKA, Adam IDZIKOWSKI – chapter 6  
Bogdan ŻÓŁTOWSKI, Mariusz ŻÓŁTOWSKI – chapter 4  
Bogdan ŻÓŁTOWSKI, Mariusz ŻÓŁTOWSKI – chapter 5  
Bogdan ŻÓŁTOWSKI, Piotr STANOWSKI, Mariusz ŻÓŁTOWSKI – chapter 3  
Joanna CYGANIUK, Adam IDZIKOWSKI – chapter 8  
Krzysztof BIERNACKI – chapter 9  
Marek SOKOLSKI – chapter 11  
Patrycja GAJDA – chapter 10  
Piotr SOKOLSKI – chapter 12  
Piotr STRYCZEK – chapter 1

**ISBN 978-83-63500-95-5**

Wydanie B5. Nakład 100 egz.

## Table of Contents

|   |    |
|---|----|
| <b>Introduction</b> .....   | 7  |
| <b>1. DIAGNOSTIC MONITORING OF ELEMENTS AND STRUCTURES OF THE SPECIAL PURPOSE VEHICLE</b> .....   | 9  |
| 1.1. Introduction.....  | 9  |
| 1.2. Analysis of the characteristic features of the selected special purpose vehicle.....   | 10 |
| 1.2.1. Analysis of the regulations relating to the vehicles for the transport of horses.....  | 10 |
| 1.2.2. Structural elements, characteristic of the vehicles for the transport of horses.....   | 12 |
| 1.2.3. Areas of the object requiring diagnostic monitoring.....   | 13 |
| 1.3. Proposals of exemplary solutions for diagnostic monitoring of elements and structure of the vehicle for the transport of horses..... | 14 |
| 1.4. Summary.....   | 17 |
| <b>2. THE METHODOLOGY OF THE DESIGN OF THE DIAGNOSER OF BRAKING MECHANISMS USING MODELLING TECHNIQUES</b> .....                           | 19 |
| 2.1. Introduction.....  | 19 |
| 2.2. The methodology of the process of diagnosing the hydraulic circuit of the working brake in motor vehicles.....                       | 20 |
| 2.3. Summary.....   | 32 |
| <b>3. RESEARCH ON VIBRATIONS OF FRICTION LININGS OF THE CAR BRAKING MECHANISM</b> .....   | 33 |
| 3.1. Introduction.....  | 33 |
| 3.2. Elements of traffic safety.....  | 34 |
| 3.3. Modeling the dynamics of vibrations of braking system.....   | 36 |
| 3.4. New solution for the disc braking system.....  | 41 |
| 3.5. Elements of the disc braking systems.....  | 42 |
| 3.6. Braking force test.....  | 43 |
| 3.7. Summary.....   | 45 |
| <b>4. ASSESSMENT OF TECHNICAL CONDITION OF THE CAR BRAKING MECHANISM IN THE PROCESS OF OPERATION</b> .....                                | 46 |
| 4.1. Introduction.....  | 46 |
| 4.2. Analysis of the vehicle braking process.....   | 47 |
| 4.2.1. Real and theoretical braking distance.....   | 48 |
| 4.2.2. Driver's reaction time.....  | 51 |
| 4.2.3. Dependence of the braking distance on changes in coefficient of adhesion.....  | 52 |
| 4.3. Stability analysis of the car movement.....  | 54 |
| 4.4. Braking performance conditions.....  | 59 |
| 4.5. Maintenance of the braking system.....   | 61 |
| 4.5.1. Brakes with hydraulic actuating mechanism.....   | 62 |
| 4.5.2. Brakes with air actuating mechanism.....   | 69 |
| 4.6. Equipment for diagnosing and servicing.....  | 70 |
| 4.7. Summary.....   | 75 |

|   |            |
|---|------------|
| <b>5. OPERATION AND EVALUATION OF WORKING MECHANISMS OF RAILWAY VEHICLES.....</b>   | <b>76</b>  |
| 5.1. Introduction.....  | 76         |
| 5.2. Braking systems in rail vehicles.....  | 78         |
| 5.3. Diagnostic techniques in passenger wagons.....   | 82         |
| 5.4. Devices for diagnosing braking systems.....  | 83         |
| 5.5. Vehicles with brake diagnosing system.....   | 90         |
| 5.5.1. Prima II locomotive (Alstom).....  | 90         |
| 5.5.2. Upgraded EN57 unit.....  | 92         |
| 5.5.3. St45 locomotive.....   | 93         |
| 5.5.4. EMV vehicle by KONCAR.....   | 95         |
| 5.5.5. ATR 220 rail vehicle.....  | 96         |
| 5.6. Summary.....   | 97         |
| <b>6. METHODS FOR DETECTING UNDESIRABLE OBJECTS ON THE CONVEYOR BELT.....</b>   | <b>99</b>  |
| 6.1. Introduction.....  | 99         |
| 6.2. The impact of difficult minerable deposits in the open – pit mining.....   | 100        |
| 6.3. Methods applied in opencast mining.....  | 100        |
| 6.4. Sorting system applied in the industry.....  | 102        |
| 6.5. Summary.....   | 108        |
| <b>7. DIAGNOSIS OF TECHNICAL EFFICIENCY OF CONVEYOR BELTS.....</b>  | <b>109</b> |
| 7.1. Introduction.....  | 109        |
| 7.2. Supervision of safety at work at conveyors belts.....  | 109        |
| 7.3. Analysis and reduction of risk.....  | 111        |
| 7.4. Concept and structure of the conveyor belt monitoring system.....  | 114        |
| 7.5. Developing own mechatronic stone detection system.....   | 116        |
| 7.6. Methods of eliminating undesirable objects from the conveyor belt.....   | 118        |
| 7.7. Summary.....   | 118        |
| <b>8. TECHNICAL METHODS ENSURING THE CORRECT OPERATION OF SILOS FOR BULK MATERIALS PRONE TO DEVELOPING BUILD-UPS AND BLOCKAGES.....</b> | <b>119</b> |
| 8.1. Introduction.....  | 119        |
| 8.2. Methods for cleaning silos from consolidated material.....   | 120        |
| 8.2.1. Methods using compressed air.....  | 120        |
| 8.2.2. Method using magnetic field.....   | 126        |
| 8.2.3. Method using sound waves.....  | 127        |
| 8.2.4. Method using carbon dioxide.....   | 130        |
| 8.3. Control of material moving in a silo.....  | 132        |
| 8.3.1. Measurement of levels of bulk materials in silos.....  | 132        |
| 8.3.2. Measurement of bulk materials flowing out of silos.....  | 136        |
| 8.4. System for flow blockage control.....  | 137        |
| 8.5. Summary.....   | 139        |

|   |            |
|---|------------|
| <b>9. SELECTION OF THE OPTIMUM TOOTH PROFILE FOR PLASTIC CYCLOIDAL GEARS .....</b>  | <b>140</b> |
| 9.1. Introduction.....  | 140        |
| 9.2. Geometry of the gear set in the G-rotor pump.....  | 141        |
| 9.3. Principle of the operation of cycloidal gears in the G-rotor hydraulic machine.....  | 143        |
| 9.4. The research program and selection of parameters for the numerical analysis.....   | 144        |
| 9.5. Calculation model of the G-rotor gear set.....   | 146        |
| 9.6. Numerical analysis results.....  | 148        |
| 9.7. Summary.....   | 151        |
| <b>10. DIAGNOSTICS OF THE TECHNICAL CONDITION OF HIGH-POWERED INDUSTRIAL MACHINERY .....</b>  | <b>154</b> |
| 10.1. Introduction.....   | 154        |
| 10.2. Diagnostics of mechanical vibrations.....   | 155        |
| 10.3. Inspection of the technical condition of electrical machines.....   | 155        |
| 10.4. Impact of mechanical vibrations on the man and the environment in the man - machinery – environment system.....               | 161        |
| 10.5. Summary.....  | 162        |
| <b>11. APPLICATION OF ACOUSTIC SIGNALS FOR DIAGNOSING THE CONVEYOR DRIVE UNIT IN THE BUCKET -WHEEL EXCAVATOR - CASE STUDY .....</b> | <b>164</b> |
| 11.1. Introduction.....   | 164        |
| 11.2. Problem formulation.....  | 165        |
| 11.2.1. Noise hazard assessment.....  | 166        |
| 11.2.2. Results of the noise hazard assessment.....   | 169        |
| 11.2.3. Diagnosis - technical condition assessment.....   | 170        |
| 11.2.4. Results of the technical condition assessment.....  | 171        |
| 11.3 Summary.....   | 175        |
| <b>12. DIAGNOSTIC EVALUATION OF THE ELECTRIC DRIVE OF MINING MACHINERY AND EQUIPMENT.....</b>                                       | <b>176</b> |
| 12.1. Introduction.....   | 176        |
| 12.2. Research methodology.....   | 177        |
| 12.3. Analysis of the tests' results.....   | 183        |
| 12.4. Summary.....  | 184        |
| <b>CONCLUSIONS.....</b>   | <b>185</b> |
| <b>REFERENCES.....</b>  | <b>187</b> |
| <b>LIST OF FIGURES.....</b>   | <b>197</b> |
| <b>LIST OF TABLES.....</b>  | <b>201</b> |
| <b>ABOUT THE AUTHORS.....</b>   | <b>202</b> |
